PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (I') ammunition storage areas, (G) POL storage areas, (II) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This installation is located approximately 2.2 kilometers (km) north-northeast of the Aksay Highway Bridge over the Don River and approximately 7 km northeast of Rostov, headquarters of the North Caucasus Military District (Figure 1).

The barracks area occupies approximately 62 acres and has 72 buildings: 19 barracks, 1 administration, 8 storage, 21 miscellaneous support, 19 probable quarters, 1 probable mess-hall, 1 probable headquarters, and 2 probable

sentry towers (Figures 2 and 3).

KEYHOLE missions of fair- to good-quality photography between

have been interpreted. Construction activity was evident throughout this period, chiefly in the main barracks area. Most of the large buildings were completed in

Study of a mosaic compiled from photography dated (US Air Target Chart, 0249-4/13MA) shows that this installation was not present.
